**RESPONSE TO COMMENTS
HAZARDOUS WASTE STORAGE AND TREATMENT FACILITY PERMIT (Permit)
AEROJET-GENERAL CORPORATION
SACRAMENTO COUNTY
FEBRUARY 2009**

This document is the Department of Toxic Substances Control's (DTSC's) response to comments received on the draft Hazardous Waste Storage and Treatment Facility Permit for Aerojet-General Corporation during the public comment period ending February 18, 2009. DTSC received comments from Mr. Jim Buehler of Aerojet. No other member of the public or regulatory agencies made any comments.

COMMENT 1

Mr. Buehler stated that "DTSC described the deep injection well program. Should this be removed from the operating permit since it is covered in the post closure permit"?

RESPONSE TO COMMENT 1

DTSC agrees that the post-closure permit will identify the deep well injection wells, so it does not need to include them in the hazardous waste storage and treatment facility permit. Therefore, DTSC will remove the related paragraph on Page 5 of the Permit.

COMMENT 2

Mr. Buehler stated that "Building 03006 is not on the west side of Building 03010. Possible revise the text to west side of Building 03006 in the southwest portion of Aerojet facility".

RESPONSE TO COMMENT 2

DTSC will make the appropriate changes to identify the exact location on the Page 10 of the Permit.
